Subject: Your help is urgently needed! - Please sign petition in support of natural gas exploration!

Your Help is Urgently Needed!

Over the last few months, many IOGA of NY members have been working hard crafting letters to the editors, op-eds, calling, lobbying, testifying, emailing, and literally driving from one end of the state to the other. The reason: to have IOGA of NY's voice heard by New York decision makers and the public regarding the benefits of natural gas exploration.

BUT It Is Not Enough – WE NEED YOUR HELP!

We are expanding our current efforts to counter the obstructionists and environmental extremists fixated on ending our quest to expand exploration in the Marcellus Shale.

Here's how you can help!

On the website – <http://www.iogany.org/> – and the blog site – www.marcellusfacts.com – you will find posted stockpiled testimony, brochures, other educational materials and a new e-advocacy section, where you can send email messages to officials and sign a petition in support of natural gas exploration.

The following is a direct link to the online petition – please sign this today:

<http://www.PetitionOnline.com/YESngNY/petition.html>

We need all of you to “bang the drum” and remind our elected officials that the Marcellus formation is an opportunity that is knocking – and knocking hard. Share the links above with family, friends, co-workers, and coalition members. **THE TIME TO ACT IS NOW!**

Lastly keep your ears tuned to the local radio stations! New radio advertisements touting the benefits of natural gas as a clean and efficient fuel source will begin today.

Thank you in advance for your assistance.
